

## Missouri Quality Initiative

For the next four years the Sinclair School of Nursing at the University of Missouri (MU) will be working with *Grand Manor Nursing and Rehabilitation Center* to participate in the Centers for Medicare and Medicaid services (CMS) demonstration project, Initiative to Reduce Avoidable Hospitalizations among Nursing Facility residents. The project will fund the creation of the “Missouri Quality Initiative for Nursing Homes” (MOQI), which among other things provide a series of nationally recognized tools to improve early recognition of changes in condition of our residents, utilize the latest electronic technology to improve communication within the home and area hospitals, and work with the current staff and doctors to improve timely and accurate care.

## Therapy rehab goals - back to community

*Grand Manor* offers extensive Skilled Rehab Therapy which includes: Physical Therapy, Occupational Therapy, and Speech Therapy. Here at *Grand Manor* we strive on setting individualized functional goals. This accomplishment is measured by making sure that patients and families are involved in their goal setting in order to safely return home. Please feel free to stop by our Therapy Department if you have any questions. We're here to serve you.
